

KLONDIKE WELDING LTD
15 MACDONALD ROAD
WHITEHORSE, YUKON
OFFICE: 867-633-3355

Job Posting: Construction Welder / Steel Erection Welder

Position: Construction Welder / Steel Erection Welder

Company: Klondike Welding Ltd.

Location: Whitehorse, Yukon

Type: Full-Time (Employee Position)

About Us

Klondike Welding Ltd. is a CWB Division 1 certified structural steel contractor with in-house engineering, fabrication, and erection capabilities. We specialize in the supply, fabrication, and installation of structural steel for commercial, industrial, and infrastructure projects across the Yukon and Northern Canada.

We are known for high-quality workmanship, a strong safety culture, and our ability to execute complex steel projects—often in logistically demanding environments.

Job Description

We are seeking a Construction Welder with steel erection experience to join our field team as a full-time employee. This role is welder-focused and suited to an individual who is comfortable working from a company welding truck, performing site welding, and assisting with structural steel erection activities as required.

This is not a subcontractor or owner-operator role. Applications from sole proprietors, independent contractors, or welding truck owners seeking subcontract work will not be considered.

Key Responsibilities

- Perform field welding on structural steel components using SMAW, FCAW, or GMAW as required
- Operate and maintain a company-owned welding truck, including welding equipment and tools
- Read and interpret structural drawings, erection drawings, and weld symbols
- Assist with structural steel erection tasks, including bolting, alignment, and assisting during lifts

KLONDIKE WELDING LTD

15 MACDONALD ROAD
WHITEHORSE, YUKON
OFFICE: 867-633-3355

- Complete site weld repairs, modifications, and deficiency corrections
- Work safely at heights using lifts or scaffolding when required
- Coordinate with the site superintendent, foreman, and crane operators
- Maintain a clean, safe, and organized worksite
- Follow all company safety policies, site-specific safety plans, and CWB requirements

Requirements

- Proven experience as a construction / field welder
- Experience working from a welding truck in a construction environment
- Basic to intermediate experience in structural steel erection
- Ability to read and understand structural and erection drawings
- Strong understanding of weld quality and inspection requirements
- Willingness to work outdoors in varying weather conditions
- Physically capable of performing construction-related tasks
- Strong safety awareness and team-oriented mindset

Assets (not required but preferred):

- Journeyman Welder or Red Seal
- Active CWB welding tickets
- Fall Protection, Aerial Work Platform, Rigging, or Hoisting certifications
- Commercial or industrial structural steel experience

What We Offer

- Competitive wage based on experience and qualifications
- Comprehensive benefits package
- Stable, full-time employment
- Opportunity to work on challenging and rewarding structural steel projects
- Supportive team environment with long-term growth opportunities
